

NANDHU KRISHNAN RADHAKRISHNAN

Rouen, France | +33 780 719 010 | nandhukrishnan.radhakrishnan.23@neoma-bs.com | [LinkedIn](#) | [Portfolio](#) |

SUMMARY

Final-year MSc Business Analytics student (NEOMA Business School, Grande École) with 2 years of professional experience at a US-based IT consulting firm. Strong analytical rigor and hands-on proficiency in Excel, Power BI, and Tableau, with experience building KPI dashboards and translating data into actionable business insights.

EDUCATION

NEOMA Business School — <i>MSc Business Analytics (Bac+5)</i> Rouen, France, Grande École Programme (MiM: Supply Chain & Finance)	September 2024 – Present (ongoing)
---	---

Vinayaka Missions Research Foundation — <i>B.Tech, Electronics & Communication Engineering</i> Salem, India	June 2017 – May 2021 (4 years)
---	---------------------------------------

PROFESSIONAL EXPERIENCE

Future Cyber Tech Pvt Ltd — <i>HR executive</i> US-based IT & Software Consulting, Hyderabad, India	April 2022 – August 2024 (2 years 4 months)
---	--

- Developed and maintained Excel dashboards tracking KPIs for 30+ employees, reducing monthly reporting time by 30% through automated formulas and structured data pipelines.
- Consolidated and verified 100+ monthly invoices, ensuring financial data accuracy across quarterly reporting cycles — directly supporting management’s cost-control decisions.
- Restructured recruitment data across 10+ concurrent hiring pipelines, cutting average time-to-hire by 20% by identifying and eliminating bottlenecks in the reporting process.
- Established a single point of contact between operations and senior management for all reporting deliverables, translating raw data into clear, decision-ready summaries.

PROJECTS

RFM Customer Segmentation Dashboard · *SQL, Google BigQuery, Power BI, DAX*
Applied SQL window functions in BigQuery to segment 287 customers into 8 behavioural profiles. Designed a Power BI report with custom DAX measures and drill-through by segment, directly replicating KPI dashboards used in cost-control reporting.

Financial & ESG Risk Analysis · *Python, Linear Regression*
Used Python and Linear Regression to analyse financial metrics and forecast financial ratios, identifying a -0.98 ESG-profitability correlation across Tesla, Ford and Volkswagen.

End-to-End Customer KPI Pipeline · *Python, SQL, PostgreSQL, MySQL, SQL Server*
Engineered a full ETL pipeline across three database systems (PostgreSQL, MySQL, SQL Server) to extract, clean, and structure customer data into a standardised KPI dataset ready for BI consumption.

TECHNICAL SKILLS

Programming: Python (pandas, scikit-learn, matplotlib), R, REST APIs	BI & Reporting: Power BI, DAX, Power Query, Tableau
Query Languages: SQL (PostgreSQL, MySQL, SQL Server, BigQuery)	Cloud & Platforms: Microsoft Azure, Google BigQuery, Google Cloud Platform
Data Preparation: Excel (advanced, PowerPivot, PowerQuery, VBA/Macros), ETL	Other: Microsoft Visio, LLM / GenAI integration, KPI Analysis

CERTIFICATIONS

SQL for Data Science — UC Davis, Coursera
Preparing Data for Analysis with Excel — Microsoft, Coursera
Certification in Business Data Analytics (CBDA) — IIBA
